## DESIGN YOUR FUTURE!

# DESIGN YOUR FUTURE

The world around us is changing faster and faster; technological, social and political. This presents both opportunities and threats for your organization.

The photo on the cover, called "Blind" (Plastic Soup), is part of our new photo collection and refers to the challenging project of Boyan Slot. He has come up with a brilliant way to get plastic out of the ocean. This young man makes the world a little better with creativity and decisiveness. This way you can also make your organization and the world a little better.

We hope to inspire you with our artistic objects and to convey the message of creativity and decisiveness to you.

You are in control: Design your Future!

## CUSTOM CHRISTMAS PACKAGE: DE LINDEBOOM

De Lindeboom is an organization from Belgium that provides care to the elderly. We have been proud to serve them for 14 years with personal Christmas packages. We develop a non-food item for every Christmas customization. From water sets to wine carafes, from sculptures to tapas dishes, De Lindeboom surprises both its employees and relations with a special and personal gift.

We have developed stylish dishes for Christmas 2017. The development started with a few sketch proposals in which the De Lindeboom logo was central. With 3D representations of the sketch we made some further adjustments before putting the design into production. The result is a brilliant scale that empowers relationships and employees.

## FUEGO

In addition to the new "Living" line, we are introducing "Fuego". With this fire pit we have the passion of fire That we want to express.

The artist was inspired by centuries-long tradition of dancing around the fire. Fire has something spiritual that allows people to escape from the everyday reality.

The fire pit consists of a round inner box and a spherical edge of figures. This edge is provided of a heat resistant coating and has some distance to the inner box so that the material stays beautiful for longer.

This beautiful, handmade work of art is a jewel for your garden and a source of fun for the long late summer and autumn evenings. The fire pit can also be used as a barbecue.
